## STATEMENT

The above-named patient was prescribed the medication listed above by the undersigned licensed physician, following an appropriate online medical consultation conducted at Ikegawa Clinic in Japan.

This medication is dispensed for the patient's **own personal use only** within the scope of **self-pay (private) treatment** in Japan. It is not to be transferred, sold, or distributed to any third party.

As this is private (self-pay) treatment under Japanese medical practice, this certificate does not include a specific disease diagnosis name. The medication was prescribed under appropriate medical judgment based on the patient's clinical assessment and medical history.

This certificate is issued by Ikegawa Clinic as its own original document to support the patient when carrying the prescribed medication internationally for personal use. **It is NOT an official certificate issued by the Japanese government, government ministries, or any other governmental or administrative authority.** Compliance with the destination country's import regulations remains the sole responsibility of the patient.

### Dr. Masayuki Ikegawa, MD

Board-certified Internist · Board-certified Neurologist

Supervising Physician for Online Care

Japanese Medical Practitioner License No.: ●●●●●●

Physician Signature

**NOTE:** This document is issued in English upon patient request as part of the clinic's self-pay consultation service (the ¥5,500 consultation fee includes medical certificate issuance). Please present alongside the medication in its original packaging and the official receipt at customs if requested.
